

You can now join the webex meeting by using your computer audio or your telephone for the audio. To use your telephone for the audio, follow the guideline below.

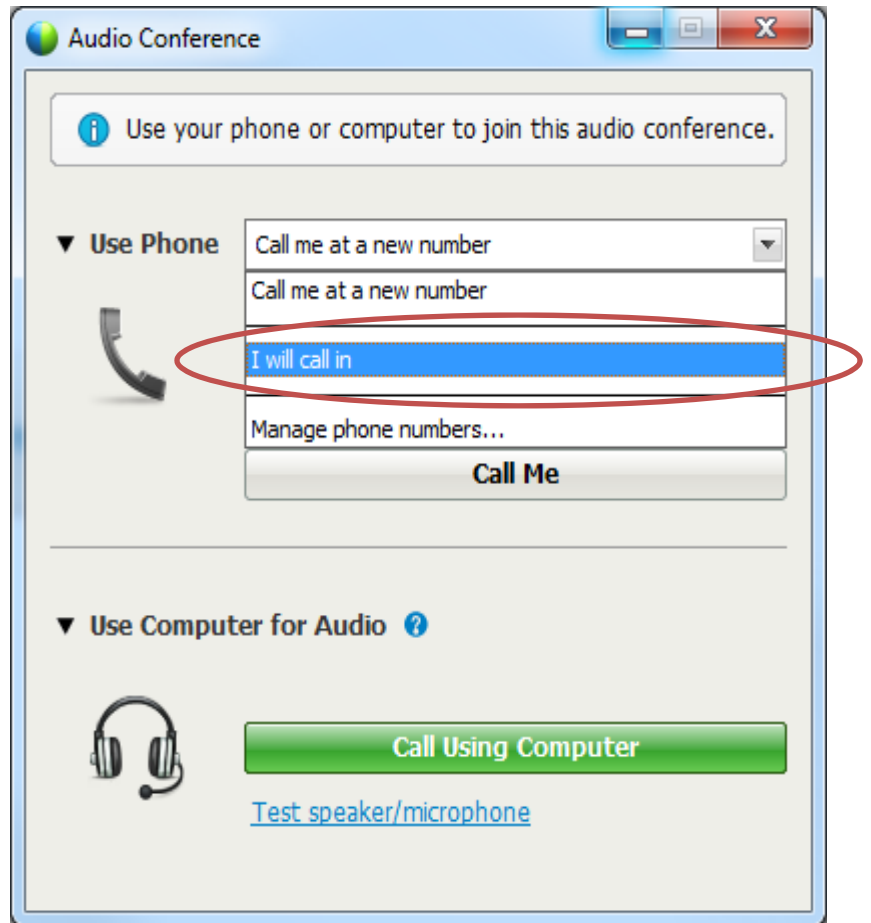

1. On the webex meeting room, click the audio conference icon. You will see a pop window as in this picture.
2. Click “Use Phone” to expand it.

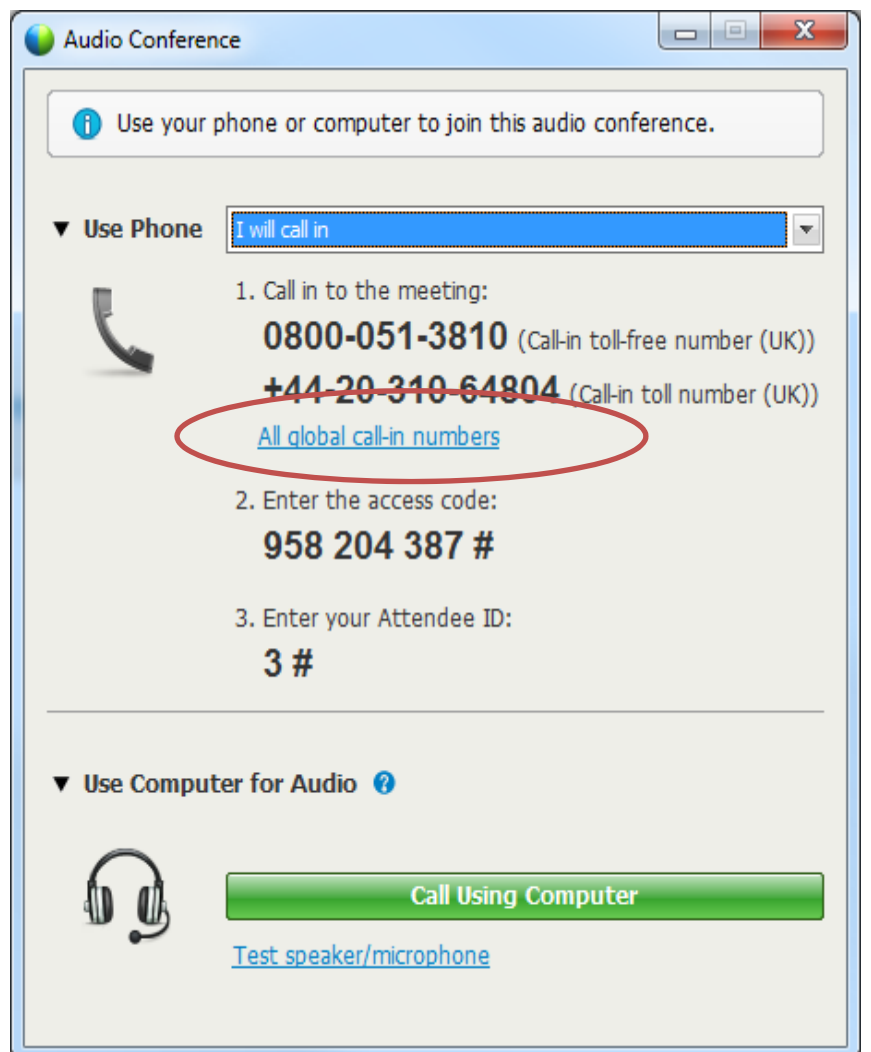

3. Click the arrow next to “Call me at a new number” to expand it.

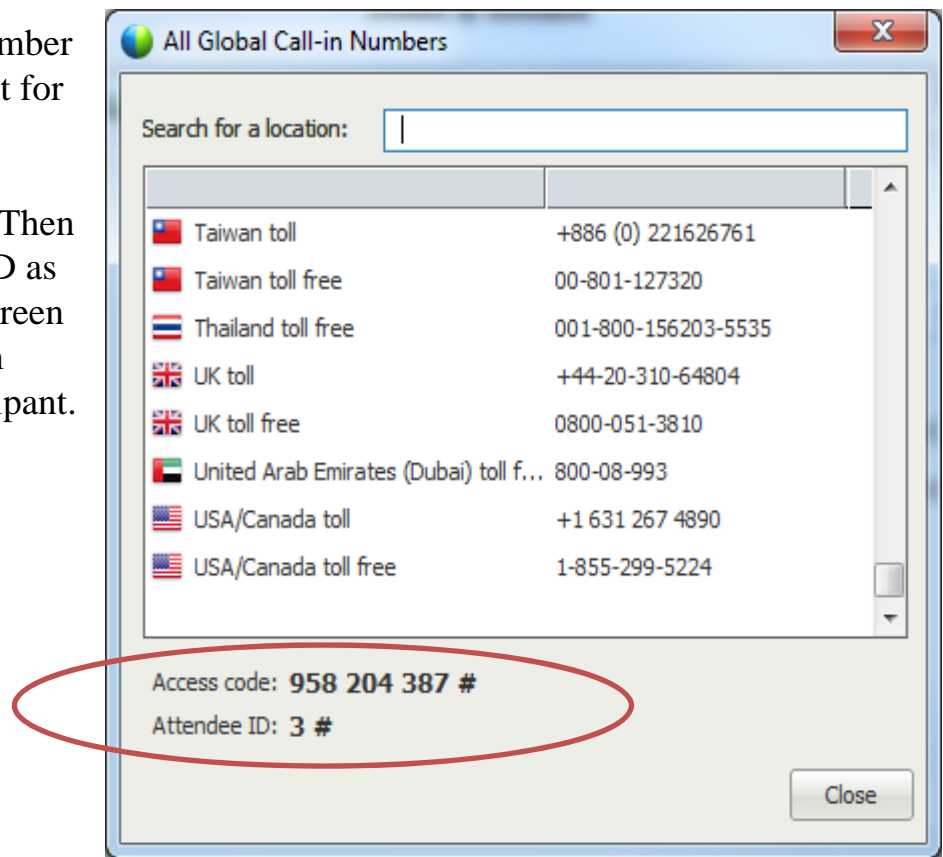

4. Click on “I will call in”

5. Call the number that appear here. Toll-free numbers for caller from UK. Or toll for international caller (please note that you will be charged by your local telephone provider at international rate if you are outside of UK). To see the toll-free number in your country, click the “All global call-in numbers”

7. Dial the toll-free number in your country, wait for response. Enter the access code when prompted to do so. Then enter your attendee ID as appeared on your screen (This will vary from participant to participant).
8. You will then be connected to the meeting.

Note: If you have no toll-free number for your country, you may use your computer for audio.
